CLIENT CASE – ROBOTIC PROCESS AUTOMATION (RPA)

Client Name : Oceania Gas Limited-Complete Home and Industrial Gas Supplier

Location: Fiji Island

Technology : RPA using UiPath

Challenge

Oceania Gas being leading Industrial Gas Supplier in FIJI has thousands of customers and managing their receivable requires prompt sending of invoices which is herculean task through manual process. Oceania was looking new ways to automate this repetitive and important task.

SOLUTION

INTEGR8 has successfully introduced RPA in the organization by building a pilot process with UiPath. After the first successful Invoice process automation, Oceania and Integr8 are now continuing their RPA journey with the automation of 10+ RPA processes covering Sales, Purchase and Production department of the organization

RESULTS

Sending of Sales Invoices to 1000's of customers without any manual intervention thus improving receivables and enhancing employees productivity by reducing work load.

Implementation of 10+ processes to aid customer receivable, vendor management, production processes.
